Do not fail to be present as it will be something fine. Admission 25cts. Children 15cts.

God Knows

There are graves in southern valleys where the sweet magnolia blooms, Where the birds sing in the morning o'er the soldier's lonely tombs; There are graves on northern hillsides lapped in the winter's snow; Who are the lonely sleepes, but God alone may know

It may be your blue-eyed darling, oh, mother with snowy hair, Who marched at his country's calling, so young, so brave, so fair; In the flush of his glad young manhood, he left you long ago, If he be the lonely sleeper, there is none but God may know

Oh wife that mourned the lost one through all those lonely years Whose heart is weary waiting, whose eyes are dimmed with tears, It may be the one that left you to bravely meet the foe In the valley or on the hillside there is none but God may know.

We only know that they are sleeping, our brave and gallant day: To tell the weary watcher whether this be friend or foe, Who sleeps the sleep that knows no waking, but God alone may know.

Then bring the fresh, sweet blossoms, oh mothers with hearts still sore, O'er the loss of the blue-eyed darling whose footfall is heard no more; Though thy hands may scatter the blossoms upon a stranger's breast, Some hand and some as tender, may deck thy darlings place of rest. Yea, scatter the fresh spring flowere alike o'er each lowly head; Little, indeed, to us it recketh, who are the silent dead, Asleep 'neath Magnolia blossoms or lapped 'neath northern snows Let our hearts breathe the glad Thanksgiving, thank God, our Father knows

On the spur of the moment Sunday meeting on Friday evening, Worthy Master E. H. Shallcross gave an occount vening, someone suggested a trip to Smyrna, which resulted in twelve of the coung men in town hiring Lee Orrell's of his trip to Presque Isle, Maine, last March, at which place he had been to atomobile for the evening

Let Not a Grave in the Cemc-tery be Overlooked

WOMAN'S TRIBUTE

MEANINING OF MEMORIAL DAY

It was just a bunch of white roses, but the ribbons that tied it together told its history-one was blue and the other was gray. It was to be placed on the grave of a boy who had fought for what he believed that all animosity had passed by, and the blue and the grey might be firm friends. So the bunch she carried for her own boy's grave was tied up in this way and in her hand was another one tied the same; it was to be laid upon the grave of the stranger That stranger whose name was even un-known to her, had died fighting like a emembered and to have tribute shown o his courage. I think it a dea-this one of decorating the graves of all the soldiers, but I like it better when the custom is carried even further and when not a grave in the ce is overlooked.

It seems to me a goodly and proper thing for the living to remember the dead, at least once a year, and it seems a kind and loving thing to mark this remembrance with sweet flowers. As a people, we are not very emotional, and if there is any way in which we can bring our kindness to the surface, it Post Office, for week ending May 14th Mrs. Wm. N. Andrews, Mrs. Geo. D. should be done, and so the encourage-ment of the day sacred to the memory of those who have cone before is worthy from any feeling but that of generosity and loving kindness. It doesn't make any difference which side a man fought right, and for that reason he deserves ng. Decoration Day ought to mean there ought to be a flag for that pur that the result is exactly the tint of eaven itself. I wonder, my friend, if you despise all the funeral trappings you wish more respect shown to ourself dead than you might possibly mand alive-and when the los have gone by, you would not like some body once a year to place a flower on your grave to show that you were still in touch with humanity. No matter who it is; if it is the woman whose life was soiled, if it is the man whose death was shameful, or it was the soldier who was fighting for his country, just re-member that none of them can defend

> nor I can judge them. Start out to make God's acre beautithe white ones of innocence, the laven ret-me-nots of never dying memory the lilies of purity, and strewing then

themselves now, and that neither you

the lilies of purity, and strewing them all about here, there and everywhere, make the day one of absolute union—union of hearts, un'on of feeling and union of remembrance. That is what Decoration Day should be.

And all these soldiers who lie sleeping those who fought not only on the battle ground of dispute, but in the greater one of life, will, when the trumpet call rings out its summons on the great Judgment day, each stand before the Great Commander, ready to answer the questions put to him. And be sure he will not ask his neighbor, "Did you wear the blue or the grey?" But instead he will say: "Brother, we have fought the good fight and may God, in His infinite mercy, judge us."—B. A. B.

PRESIDENT STATES HIS PEACE PLANS

Government in Mexico That Can Meet Its Obligations.

HUERTA READY TO GET OUT

Their Plans Contemplate Elimination Of Dictator's Party Also-Wilson Would Treat All Factions Fairly.

Washington, D. C .- President Wiltold the American commissio that the United States Government regards the settlement of the Mexican problem in a definite form as a pre-

requisite to the withdrawal of the American forces from Vera Crus. The President gave the American commissioners—Justice Lamar, of the Supreme Court of the United States Frederick W. Lehmann, former Solictor-General, and H. Perceval Dodge, the secretary—no specific instructions. He told them to place themselves in a receptive mood and await proposals from the three South American media-

But at the same time he outlined to his representatives that peace in Mex-ica seemed to him to be conditioned on the elimination of the Huerta ad-ministration and the establishment in its place of a strong provisional government, which would conduct an election, giving fair treatment to all fac tions and parties and guaranteeing, moreover, a solution of the agrarian problem and other internal difficulties which have bred revolution in the Southern republic during the last three

The President wishes the Mexican question settled on comprehensive lines that will take into account the economic principles for which Zapata, in the South, as well as Carranza, in the North, have been fighting, and will at the same time conserve the right ful interests of the people in the ter-ritory now controlled by the Huerta Government.

Huerta Ready To Go.

In the course of the day a dispatch came to one of the foreign diplomats here from a diplomatic source in Mex-ico regarded as thoroughly competent stating that General Huerta was ready to resign, and would permit his repre-sentatives at the mediation to elimi-nate him if it should become absolutely

This dispatch confirmed intimations that have come from the three Huerta delegates since their visit to this coun-try showed that they had realized Huerta's elimination was regarded as This was reported to the Revenue Cutessential to a settlement and knew from the phase of the problem their dispatch from the captain of the efforts would be fruitless. The Huerta delegates, too, it is learned from perColumbian's boats had been picked up sons who have talked with them, un-derstood thoroughly that the scope of the mediation has been broadened be-yond the difference which arose out of

A HITCH INEVITABLE.

The Mexican peace delegates realize Huerta's administration is crumbling, and they are interested in the choice of a succesor who will protect all Mexican

sor who will protect all Mexican interests.

They will want guarantees against confiscation of property by invading Constitutionalists.

They want to see set up a stable government that will secure world-wide recognition.

They want Corrange and Ville.

They want Carranza and Villa eliminated from any possible chance of succeeding to the pres-The Constitutionalists insist

that they will consent only to a conquest of Mexico City by force of arms and the establishment of their own civil government.

The Mexican delegates will on the other hand insist upon the selection of a man for president who will be able to guarantee all as a constitutional govern

STRIKE ON IN OHIO MINES

Action Changes Miners' Status From

Columbus, Ohio.—Orders declaring the United States. After much hesis atrike of all coal miners in Ohio went out from headquarters of District No. 6, United Mine Workers of America, here. Miner officials also began payclement offers from American government officials, the Huerta trio, including the inscrutable Rabasa, with his great round, black goggles, made to every member of the organization. The mines have been closed since April 1 by orders of the operators.

National Bodies Urged.

Memphis, Tenn.—Close affiliation between the national and State organization, and the appointment of state to make any statement as to his Mexican corresponding secretaries looking to this end was emphasized in resolutions adopted at the session of the National adopted at the session of the National adopted to resolutions and the appointment of state organization. The mines have been closed since April 1 by orders of the operators.

A TRAGEDY OF THE SEA WILSON'S STIRRING ADDRESS

Two Weeks After They Had Left the Doomed Steamer, the Third Of the Boats In Which the Crew Had Left Is Picked Up.

Halifax, N. S.-A brief wireless mes sage received here told of the discovery by the United States revenue cutter Seneca of the missing third lifeboat of the Leyland Line Steamship Columbian, which was destroyed by fire in mid-Atlantic two weeks ago. Of the 15 men who scrambled over the side of the ill-fated liner into the third boat, only five were alive when found by the Seneca.

The other 11 had died from ex-

osure, and their bodies had been cast into the sea. In the boat were Robert Tiece, Oscar Kendall and Ludwigsen,

All of the survivors were in a state ism.
"Patriotism," he said, "is a prinof complete mental and physical exhaustion as the result of their terrible experiences in the open boat at sea.

in latitude 43.26 and longitude 59.30.

Those rescued were the chief officer, two seamen and a fireman. These yond the difference which arose out of the arrest at Tampico of American haustion when picked up. Half-crazed from thirst, hunger and exposure they presented an awful sight when the Seneca reached the side of the little craft. The men were helplass better that America had a sight of that America had a sight o Seneca reached the side of the little careful. The men were helpless, being scarcely able to move hand or foot, and their voices had failed almost to the concern the existence of the little careful that America had a right to be a concern the existence of the little careful that America had a right to be a concern that the concern the existence of the little careful that America had a right to be a concern the existence of the little careful that America had a right to be a concern that the conc

and their voices had failed almost to a whisper.

Only Four Left.

That these four of the Columbian's men are living is almost a miracle. They had long been mourned as dead and when they are able to talk freely of their experiences they will have a terrible story of the sea to tell the world. Short of provisions from the outset, they had practically nothing to subsist on, and one by one they succumbed. Gradually the human burden of the boat became lessened, 11 of the men having died and their bodies consigned to the depths.

"There are just as vital things stirring now that concern the existence of the nation as were stirring in the time of the Revolution and were yman who worthily stands in this presence should examine himself and see the world. Short of provisions from the outset, they had practically nothing to subsist on, and one by one they succumbed. Gradually the human burden of the boat became lessened, 11 of the men having died and their bodies consigned to the depths. signed to the depths.

How They Died.

When their short allowance of biscult and water had failed they maintained life by chewing boot leather and the few stray crumbs of hard tack. Rain water served them when their water cask went dry. The first two days after drifting away from the flaming Columbian they saw three steamers, too far away to be signalled.

How They Died.

MURDER OF PARKS

United States Sends Sharp Note to Huerta.

DICTATOR MUST ANSWER.

tain Arms Through Tampico. Dictator's Delegates Delay Mediation.

Washington, D. C.—The United tates has demanded of the Huerta overnment news of the fate of Private Parks, the American infantryman who trayed into Mexico lines near Vera cruz, declaring that unless information bout him was given immediately the merican Government would consider that "an unfriendly and hostile act" had been committed in violation of the understanding for a cessation of war-

like moves pending mediation.

President Wilson and Secretary
Bryan, drafted a strong communication after receiving word from the
Brazilian Minister in Mexico City that.

Parks had been "executed." No mention was made in the Minis-ter's report of whether he was shot as spy after a court-martial or whether Only Four Out of Fifteen Persons Memorial to the Father of the his body was burned, as has been per sistently reported to General Funston.
The American Government cabled the
Brazilian Minister to inform the
Huerta Government of the strong feelng of the United States in the mat-ter, directing him to make vigorous presentations concerning the inci-

> The note asked the Minister to protest to the Huerta Government that if Parks were alive the failure to explain his whereabouts was in itself an un-friendly attitude, and that if the sol-dier has been executed, as has been Washington, D. C.—In the presence of several thousand persons, including members of the Cabinet, senators, repreported, such execution of a man who came into the Mexican lines in full uniform was contrary to military pro-cedure of civilized nations and an act resentatives, Army and Navy officials of high rank and members of Irish-American organizations from all sec-tions of the country, and with Presiof hostility.

No mention was made in the American note of the course the United States intends to pursue in the matter, but an official close to the President Wilson the principal speaker and Secretary of the Navy Josephus Dan-iels presiding, a bronze statue of Com-modore John Barry, "Father of the American Navy," was unveiled in modore John Barry, "Father of the American Navy," was unveiled in Franklin Park here.

HORTICULTURAL DEPARTMENT

THE Extension Division of the Hor ticultural Department desires to co-operate with a large number of tomato growers during the coming sea son. There are a number of important phases of tomato production in Delaware that have as yet not been satisfactorily cleared up. Among these are use of lime in growing tomatoes. 2. The use of Acid Phosphate. 3. Methods of Cultivation. 4. The proper method of applying fertilizers and last but not least the spraying of tomatoes for blight. The Horticulture Department would like to have a number of growers test those things out during the coming season. The work will for the most part be simple, meaning only the use of special methods in four or five rows across the tomato field. For example the application of lime to a strip across the field, or if the field is to limed, the ssion of lime upon a strip across the field, the use of extra and less amounts of phosphoric acid in the fertilizer applied to a small strip; cultivation under the direction of the Experiment Station of a few rows; a few rows with fertilizer applied broadcast; and the spraying of a few rows of plants with Bordeaux Mixture as directed by the Experiment Station. All tomato grow ers who are willing and wish to co-oper ate in establishing better methods of growing tomatoes will please commu nicate with Prof C. A. McCue, Newark

DELAWARE LACKING IN UNITY

DOVER, Del., May 18.—Secretary of State Thomas W. Miller, has analyzed conditions in Delaware in a statement issued under his signature. He ascribes slow progress in the State to diverging views and lack of social interchange between residents of the three counties and the citizens of Wilmington, the metropolis of the State.

"A frank statement of conditions is that citizens of Wilmington and its adjacent territory do not co-operate in business or socially with the inhabitants of the other counties in the State. It is all the more surprising when one considers the smallness of the area into which we are all thrown. The main which we are all thrown. The main reason for this is the distinct division between agriculture and manufactur

Wilmington is situated on three trunk line railroads, which give its citi zens direct access to four of our largest Eastern cities, and after boarding a train at any railroad station the Wil-mingtonian is carried outside the borders of the State within a few min

"The majority of Wilmingtonians do not evince any interest in their State outside of the city, and this lack of social interchange corresponds to their economic and business interests, which, when not in Wilmington, are elsewhere outside of the State.

"The increase of the population of Wilmington in the last two decades from 1890 has been caused by an influx of people, not from Kent and Sussex Counties, but from outside of the State so we have a harder task ahead to instill into these people Delaware ideas and traditions which are worthy of praise and admiration.

"The county of Kent has not varied the county of Sussex has in creased considerably.

"Sussex Couniy is populated by large number of people who have Maryland forbears, and, in fact, more than half of this county used to be under Lord Baltimore's original grant and was ceded to Penn's heirs in the early part of the 18th century.

"These facts are not mentioned to bring out the point that while both Sussex and New Castle Counties have increased in population, this increase has not been composed of a majorit of people who would be likely to under stand Delaware, its needs and the questions which might confront us.

"The neglects as to social interchange cannot be laid to Wilmington door alone, because the writer has found many, many instances where the peo County had never been to their State capital, Dover, which is the centre Kent County and the centre of the

Saulsbury Affairs Settled

Announcement was made Tuesday of of William Saulsbury, formerly a resient of Dover, but now a res California aggregating \$40,000. All of his holdings, including two valuable farms and a number of building lots in Dover have been purchased by Arley B. Maye, a Dover attorney.

The Dover Delawarean, an asset of The Bover Denawarean, an asset of the Saulsbury family since 1859, will be controlled by United States Senator Willard Saulsbury, of Wilmington, by the terms of the settlement.

SOLAR ECLIPSE ON AUGUST 21

WASHINGTON, May 18.—The eclipse of the sun on August 21 next—total in part of Europe and Asia and partial in Northeastern America—is attracting videspread attention among astrono ners and scientists, various expeditions being arranged to witness the phenome

Prof. C. G. Abbott, head of the astro stitute and a recognized authority on solar phenomena, gives the following popular account of the eclipse and the ientific results sought from such

"The moon will pass exactly between he earth and the sun and there will be a total solar eclipse. It will not be observed in America except as a small partial eclpse at sunrise in the northern states, but in Persia, Russia and Scan-

dinavia the full effect will be seen "Although the moon looks about the same size as the sun, it is very much smaller and nearer. The sun is 765,000 miles in diameter and 93,000,000 miles away, while the moon is 2,163 miles in diameter and 239,000 miles away. On account of the moon's small size, compared with the sun, the shadow cast by he moon is a cone, and the point

this cone, just barely reaches the earth.
"In the August eclipse the diameter of the cone at the earth's surface is only about 85 miles, so that the eclips is visible as total only in a belt about 85 miles wide, stretching over the countries named above. The cities of Bitlis, Trebizond, Kief, Minsk and Riga lie near the centre of this belt. passes about 100 miles north of Stock-holm and Trondheim. The eclipse will be seen as partial over a very wide area, including Northeastern America, Green land, Europe, half of Asia and half of Africa. Within this region only a portion of the sun's disk will be hidden by

"Wherever the solar eclipse is seen as total, the sky will become nearly as dark as full moonlight, and a few of the brighter stars and planets may be seen. The duration of the totality is longest near Kief, in Russia, where it is 2 minutes 13 seconds. In the most favorabl case a total eclipse may last over 7 min utes at a station, but such occasions ar

HOUSE OF PORCELAIN

A home of porcelain that can be erected with a screw driver and a wrench in a few hours, is the plan of W. Hales Curter, who calls himself "the pioneer of borcelain."

"In the construction of the porcelain nouse, he said, "there is a complete absence of all absorbent materials, such as bricks and mortar, plaster, white wash, concrete, woodwork and paper The complete porcelain house structed as follows: Framework, pre ferably of light, rust-proof metal. In this framework are fitted the large porcelain panels, half an inch thick feet long and three feet wide weighing five pounds to the superficial foot, decorated and glazed on both sides to resist wind, storm and weather with steam-tight joints; made of copper-coated asbestos tape.

"Porcelain is non-absorbent, insec and germ proof, fire-proof and washable, and it makes possible for all a perfectly hygenic home. As for warmth—an inch thick wall of pure porcelain glazed both sides is better able to keep out cold than an eighteen inch brick wall. With bricks and mor tar it takes months to erect a house of, ay, five rooms; a porcelain house of the size can be put up in a few hours.

THE SCHOOL PLANT

The demand for the more general use of the public school buildings and grounds is becoming general throughout the United States, and in many cities

perimental stage.

In the current edition of Hearst Magazine an article entitled "Putting the School Plant to Work," contains at least some material for consideration that it might be well to adopt. The article says, 'Use the school house'. The school house is the natural, logical, ready-to-hand rallying place of democracy. It is the People's House,' al-

ready built and equipped."

Philander P. Claxton, United States Commissioner of Education, points out that we have about \$2,000,000 invested schools and a quarter of the year these lie idle "for no other reason than that in the primitive days teachers and pupils were needed on the farms three or four months in the summar."

The spots of nustless of or four months in the summer." There we have another instance of the ghostrule of the world, of how we go on doing a thing by sheer inertia for no reason except that we have always done it, go on doing it long after the reason for doing it has disappeared. We do not act from reason, but from the ghost

Edward W. Stitt, one of New York City's superintendents in charge of vacation schools and playgrounds, puts the matter into some definite, sensible

1. Use school auditoriums for concerts, lectures and entertainments.

2. Conduct moving picture shows in

3. Have social dances in school rooms 4. Make school cellars into bowling

Let the class rooms be club rooms

at night.
6. Use school pianos at night to

Use day school cooking rooms to teach women at night.
8. Utilize workshops at night to

So if you want to know precisely what

to do, here is an expert who tells you. Such a policy would be vastly valuable to the hordes of immigrants to our big cities. We owe it to the newcomers to assimilate them into American ideals. And no less do we owe it to ourselves.

The public schools in the smaller cities and in the country districts should be so Lintner, of the department of Agror utilized. Commissioner Claxton recommends the establishment everywhere of school gardens, a recommendation proposed by the American Society for

It is about time that the people realize the possibilities for culture and public welfare contained in the enormous public school equipment. And particu larly is it not time that we awake to the fact that the most powerful agency in morals and moulding the tastes and ideals of young people is amusement? Teach to play is the keynote of modern education. Any plan to control the character of the rising generation which ignores play is poor and inefficient. The public school house is the temple of de-mocracy, and upon it should be inscrib-

"Thy gates shall be open contin They shall not be shut day or night.'

WHAT AM I?

I am the shrewdest servant of the de-

vil that ever came on earth, I have fooled great moral teachers

I have fooled great scientists. I have fooled great doctors of law and

their mothers,
I have caused many murders,

his friend, 1 am alcoholic drink!

am guilty, the signers are responsible, as it is impossible for a saloonthe law says respectable Citizens.

Is not this an insult to respectable Citizenship?—North American.

DELAWARE COLLEGE

QUARANTINE ON MAINE SEED POTATOES The Department of Plant Pathology of Delaware College again calls the attention of potato growers in Delaware and the Peninsula to the serious nature of the powdery scab of potatoes. This disease has secured a strong foothold in the seed-potato districts of Maine and since most of the seed for our early market potatoes comes directly from this northern source, it will be necessary for us to become aware of the serious nature of this trouble. Careful examination should be made of all potatoes used for seed, and should the presence of a new form of scab be manifest, pecimens should be submitted to the

Plant Pathologist of Delaware College, Newark, Delaware.
This disease is considered so seriou the uses of the school plant as social that the Federal Horticultgral Board centers have advanced beyond the ex- has issued a notice of quarantine on on Maine seed to become effective on August 1, 1914. In Scotland, the Board of Agriculture prohibits shipments from infested land and further quarantines all areas showing any evidence of being infested. Our growers are al-ready aware of the fact that the United States has a quarantine against European and Canadian Potatoes on account of this disease and the black Wart or

otato trouble. There is no doubt, but that the disthat we have about \$2,000,000 invested in grounds and structures of public Plant Pathologist having found the

Canker, which is likewise a disastrous

common scab, but are smaller and nearly circular, breaking through the thin surface skin of the potato and turning it back like a rust pustule; the center is brown and powdery. This disease like ordinary scab may persist in infested soil for a long time. The usness of the disease is due to several characteristics not common to ordinary scab; viz., powdery scab on potatoes according to statements made at the public hearings in Washington, is not destroyed, when they are treated with formaldehyde snd corrocive sublimate. Also in storage, especially in spring under warm conditions, the disease continues its activity, forming cankers by enlarging and deepening the infected spots.

The Department of Plant Pathology of Delaware is desirous of keeping in touch with potato growers throughout the Peninsula, and it will gladly furnish franked tags to forward specimnes; identification of the disease will be made and a report sent to the grower.

AGRICULTURAL NOTES "The Country Gentleman of May 14, contained an article by Professor A. E. Grantham, of the department of Agro nomy of Delaware Colleke, on "Select ing corn by Weight." Professor Gran tham will also have a paper in the next issue of "The Journal of the America Society of Agrono uy on "The effect of the Rate of Seeding on Competition in Wheat Varieties." On May 16 Mr. my, made an address before the Har rington Grange. On May 14 Professor McCue addressed the tomato grower of Frankford and vicinity, and after wards made arrangements with a num ber of them for some co-operativ

INTERSCHOLASTIC LITERARY CONTEST In the presence of a representative and appreciative audience the first and nual Oratorical and Contest of the high schools of Delaware was held on Friday evening, May 15, in the Oratory of Delaware College. In the Oratorical contest, New Castle County was reprecontest, New Castle County was repre-sented by Ralph Chalfont, of the du-Pont High School, Wilmington, who spoke on "Abraham Lincoln"; Kent county, by Maurice Wyatt, Dover High Scoool, whose subject was "The British Occupation of Egypt"; and Sussex County, by M. Kenneth Myers, Lewes High School, who presented an argument ag ast "The Whipping Post."

In the ssay contest, New Castle County was represented by Miss Elva Frederick, duPont High School, who read a paper on "The Matienal Cares" are appeared. a paper on "The National Grange"; and Kent Couty by Miss Margaret Dung Smyrna High School who spoke on "The Progress of Women." I am admitted where all other devils \$25 in the Oratorical Contest awarded to Ralph Chalfont, of the du-Pont High School In the Essay con test the judges were unable to decide between Miss Frederick and Miss Dunn and the prize of \$25 was divided equally between them. The judges were Dean Robinson of the new Delaware College for Women; Dr. W. O Sypherd, pro-fessor of English in Delaware College; and Mr. E. H. Fockler, principal of Elk-ton High School. During the evening E. W. Martin, leader of the Delaware College Orchestra, played a numbe solos on the violin, including the "Humoresque" by Dvorak.

GENERAL SERVICE BOARD

The General Service Board of the Delaware Society of Civic and Social Welfare and its Executive Body. The General Service Board of Delaware, is organized to co-operate with the existing civic and social welfare organizations and for the following purposes:

1. To study in a scientific manner all the General Welfare and Civic problems in Delaware, to the end that all the interests concerned in proposed legislation be given mature consideration before bills are presented.

2. To aid in the study and supplement the efforts of the organizations in the state already conducting such divisions of the work as: The Juvenile Court Association, The Child Labor Committee, The School for Foreigners, Consumers' League, Associations, Parent-Teachers' Association, Delaware State Grange and similar organizations throughout the State.

3. To educate and stimulate the citizens of the State of Delaware to the full and effective support of such measures as the society shall approve after deliberative study.

4. To endeavor to establish as public policy and enact into law such measures as shall be finally determined as applicable to condition within the state.

To properly work out the "scope of this movement, it is necessary to be assured of financial support for a period of not less than three years, from June 1st 1914, to June 1st, 1917. This is in order to allow ample time for a thorough study of many of the State and local problems indicated under the above purposes, and for careful consideration at the legislative sessions in January of the years 1915 and 1917

above purposes, and for careful consideration of all interests affected by proposed measures preparatory to presentation at the legislative sessions in January of the years 1915 and 1917.

For these reasons the Organizing Committee feels it necessary to secure the subscriptions to—or the underwriting of—this work to an amount of \$10,000 per annum, or more, for the first three years, to be applied to secretarial office, educational, legal and other expenses. It is, therefore, necessary to secure from those citizens of our state who support these principles a subscription guarantee running for three years, payable quarterly, semi-annually as desired. The amount subscribed carries with it membership in the society. The moral support of every interested citizen as a member of the society is needed, as well as the financial support of every dollar or more of individual subscription that can be secured.

The subscription shall be made binding and effective upon a minimum guarantee of \$5,000 a year for a three year, period.

DECREE IS THAT SUNSHADE IS TO MATCH THE FROCK.

All Sorts of Designs Are Permissible on the Panels-Almost No Limit as to Amount of Money That May Be Spent

gets about her complexion when she gets about her complexion when she selects her summer sunshade. The prettiest of the new parasols are those made of taffeta to match the newest taffeta frocks. In most instances they are trimmed with embroidery, the simplest of stitches being used. It is nothing unusual for the modern wardrobe to contain as many as a dozen different parasol designs. Chif-fon and lace effects are used for very

Ecru Taffeta.

Ecru Taffeta.

That was eight months ago, and single frock with which a well-embroidered, cleverly made taffeta sunmade in the same way. He also has shade will not be appropriate.

The model shown here is in pale or made from gloves, as well, and findered in shed with tiny pompoms. They look and sprays of flowers embroidered in very charming, and are much admired. alternating panels. Tango ruffles may be added to the plain panels, if de-sired. These are made of chiffon, lace and tulle.

Fruit vegetable and flower designs are highly favored as motifs for smart summer sunshades. A panel of wheat combined with cherries looks particularly well-done in linen for use with rub frocks.

Fortunes are spent on parasols alone this year. Not only are the most exquisite of scented woods used for handles, but they are frequently studded with real jewels and set in frames of solid silver and gold fil-

Of course the woman who is quick and clever with her needle may reduce the cost of production by making her own sunshades. It is easy to get the panels already stamped, em-broider them, and then have them mounted at a local umbrella store or at the umbrella department of some of the large establishments.

PLEASURE IN WOMAN'S KITCHEN GARDEN

nary Rolling Cultivator Attached to Wheel Hoe.

to make it tidy.

In less than an hour my first attempt at shoemaking was finished, and baby had a comfy pair of slippers which fitted his little feet perfectly, and absolutely refused to be kicked off. It is a beautiful place in summer, | and winter use. When my green beans this kitchen garden of mine in Missouri, and I am going to give you a pen picture of it, that you may possipen picture of it, that you may possi-

bly enjoy it with me.

It is 80 feet long by 60 feet wide, and fenced with eight foot high poultry netting. Grape vines are trained over this fence nearly hiding it.

A few steps from the kitchen door a wire gate opens into this wall of grape vine verdure, and I step at once into my garden

In the far corner three fine trees are growing close to the fence. Their roots run under the fence to beneath the barnyard, and gather strength from it, while the trees are in the garden, and with their fruit are protected from the stock.

The soil of my garden is black and rich, made so by fertilizing from the poultry houses and by wood ashes.

I never allow fertilizer from the richer. barns to be spread on the garden, as it is full of grass seed, and makes doubly hard the task of keeping the

The garden is always plowed in the February it is plowed again, and the nion-bed made.
I plant the onion seeds in the bed

so the seed will not sprout until

planting in this way my onion seed get well soaked, and ready to sprout and grow ahead of the weeds

in the spring.

After they have been hoed a couple of times, and when the tops are three or four inches long, I thin out this bed, and transplant the extra onions to a larger bed, where they grow to

ill size.

I find that onions raised in this way rom seed are much sweeter, better teepers, and fully as large as those the garden changes. The large red the garden changes. The large red raised from sets.

It seems to do them good to trans-plant them, as they grow much larger than the ones in the first bed. When

hoeing them do not be afraid of breaking down the tops, as that is necessary to make them bottom well.

plant my lettuce, radishes, beets, turnips, peas, potatoes and carrots, for early use, as the frost will not hurt any of these.

vegetables and fruits. There is another and practical side of this garden. Besides furnishing most of the living through the sum-

so that more leaves grow from the same root, and thus I keep up the supply of radishes and lettuce, while

Thus my garden lasts the year

INTERNATIONAL

LESSON FOR MAY 24

UNPROFITABLE SERVANTS LESSON TEXT-Luke 17:1-10. GOLDEN TEXT-"He that glorie aim glory in the Lord." I Cor. 1:31

with that of last week; while spoken especially to his disciples it was most probably at the same time and in the same atmosphere as that of the other lesson. The teaching is a conceived in the Pharisee's house. The heart of Jesus was filled with compasost sheep. His anger was kindled against the men whose love of money and of show had calloused them in the presence of this multitude. It was in this spirit that he turned and taught his disciples.

A Special Warning.

I. "Take Heed to Yourselves," vv. 14. It is inevitable that occasion of stumbling shall come. Satan is not going to lose his spoil without putting forth his best endeavor to hold, to ensnare, to trap men. God, however, has taken this into his plan and makes them to work out for the good of his people, Ps. 76:10; II Cor. 12:7. Why does God permit evil in the world? He uses these stumbling blocks to test us and we who are approved are made manifest, I Cor. 11:10. This does not mean that we are guiltless if through one we fall, nor minimize the guilt of the one through whom they come, see Matt. 18:7. We as followers must go to every possible length to avoid being an occasion to another I Cor.8:9, 13; 10:32; Rom. 14:13. In this lesson (v. 2) Jesus sounds a special warning against those who cause one of his little ones to stumble, e. g. those weak in faith, this hungering multitude who follow him, these babes in Christ," as well as children of tender years. Particularly, how-ever, is this doom pronounced upon those who divert from paths of right-cousness the course of childhood. Not only men who prey upon those of tender years, who exploit their labor or cause their moral corruption, but careless and indifferent parents should ponder these words. To hinder a child from accepting Christ or cause it to stumble through a sinful example will reap an awful retribution. The word "these" as here used is another indication of the nearess of chillhood

dication of the nearess of childhood to our Lord in his earthly life.

To avoid such a danger each individual life must "take heed" (v. 3), (I Tim. 5:16). Appealing to his disciples Jesus showed them their true attitude towards a sinning man was to rebute him Lev 19:17 and if he to rebuke him, Lev. 19:17, and if he repented he should be forgiven. It was here that the Pharisees and rulers had failed. They were "blind leaders of the blind" and failed to see the eagerness of the sinners and public-ans to hear Jesus, a movement which indicated a desire to reach a higher moral plane. Understanding this, they would have forgiven them even though it to be unto "seven times in the day." Forgiveness here means to dismiss or to send away as though the offense had never occurred; thus God for-gives us, Isa. 37:17; Micah, 7:19; Ps. 103:12; Matt. 6:12. The use of the perfect number seven indicates that there is to be no limit, but that our forgiveness should always be ready for the man who who comes saying, We are not to wait for "I repent." him to give evidences of being re-

Nothing Impossible. II. "Increase Our Faith," vv. 5:10. Such a program as that just outlined

must have staggered the apostles as they thought of their own inability so to conduct their lives. This exclama-tion reveals their sense of the impor-tance, superiority and difficulty of his lowship with our Lord that the eyes of our understanding are opened and we see our importance and the neces-sity of having him fulfil in us that which is lacking of his ideals. Their petition was a recognition of ability as well as of their need. In response as well as of their need. In response to our cry he will supply, Mark 9: 24-27. Nothing is impossible to him (v. 6), Phil. 4:13. The illustration is one easy to remember. The insignificant little seed of the mustard has in it tremendous power of growth and development, many thousand times its own weight and bulk, see Matt. 13:31, 32, because it is linked with God's tremendous laws of life, with omnipotence. Our Lord contrasts such power with the removal of a sycamore tree; small wonder we re-ceive such a vivid and lasting lesson of the power of faith, even the weak est faith. Faith is a principle neces sary to overcome the obstacles in the way of measuring up to his ideals if it is of the right quality, it is equal to the doing of the most mighty things. Passing from this contrast Jesus uses the parable which follows (vs. 7-10). The word "but" would suggest an apparent departure from this subject. It is, however, a correction of any false idea that may have arisen that the doing of duty can be the cause of boastfulness or create any rights whereby we may expect any special reward for service. The disciples, as has been suggested, realized the as has been suggested, realized the difficulty of obeying his commands. yet they knew that such obedience would assure them the highest re-wards of faith. His words implied and warranted such a conclusion, hence he warns them not to make the reward the motive of their service In this parable slave, his master's property, has no rights, no claims upon his master, and is expected to perform his duties.

"They say that girl can lead any-body by the nose."
"The story is miss-leading."

Be sure that you ask for Wright's Indian Vegetable Pills, and look for the signa-ture of Wm. Wright on wrapper and box, for Constipation, Biliousness and Indigen-tion. Adv.

Overexertion.

"You frown like a pessimist."

"Well," replied the patient man;
"that's what I get for worrying myself half to death trying to think of something to be optimistic about."

BLOTCHES COVERED LIMBS

19 Roach St., Atlanta, Ga.—"A few months ago I had some kind of skin eruption that spread until my limbs and feet were covered with blotches and watery blisters. It looked like eczema. When the trouble reached my neck and face I was almost driven frantic. It itched and stung so intinuation of that just given and which grew out of the hospitality Jesus received in the Pharisee's house. The any clothing on the affected parts. After two months I commenced to use Cuticura Soap and Ointment and after for the needy multitude. He, Good Shepherd, was seeking the in six days the trouble left. My skin was fair and smooth again eruption never returned.

"My cousin was a sufferer from pimples, known as acne, on his face and seemed to grow worse all the time. I recommended Cuticura Soap and Ointment to him and now his face is smooth for the first time in three years and he owes it all to Cuticura Soap and Ointment." (Signed) Wal-ter Battle, Oct. 7, 1912. Cuticura Soap and Ointment sold

throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."—Adv.

Army's Fight on Typhoid.

The efficacy of the treatment of ty-phoid by vaccination is established by the remarkable statistics for the United States army during last year, when only two cases of typhoid fever among the enlisted force of 80,000 were recorded. Of the two cases, one was that of a man who had not been treated with the vaccine: the other was among the troops in China. This man had been immunized in 1911, but the history of the case is in doubt.

Before the vaccine treatment was adopted the typhoid average was 3 to 1,000; in 1910, before inoculation was practised, the rate was 2.32 a 1,000; in 1911 it dropped to 0.80, and in 1912 to 0.26.-Engineering Record.

A lumberman having awakened on a Sunday morning in a "dry town." ofter a big spree of the night before, searched his pockets in vain. Being very thirsty, he remembered stumbling over a pump in the alley back of the hotel.

He hastened to the pump and began pumping, but without results, as the pump had not been primed. He slowly backed away and, eyeing the pump, said: "Well, I don't blame you for not working, anyhow. I wouldn't patronize you when I had money."

Pleasant for Preacher.

A mother sent her little daughter down to open the door and entertain the minister, Mr. Black, while she finished dressing. When she appeared the little kitten ran in ahead of her, and the tiny maiden jumped up and down and screamed at the top of her

voice: "Oh, kitty, kitty, go out, quick."
The mother was horrifled, and said:
"Daughter, what makes you act so?"
"Well, mother, dad said last night 'that Mr. Black's sermons were en to make a cat sick,' and I don't want

Copyright First steps were taken to place uni-In early days farmers set milk on ersity and collegiate education in Maryland on a higher plane when Gov-ernor Goldsborough, in compliance with an act of the last legislature, apkitchen or pantry shelves to raise cream. After standing twelve to twenty-four hours the cream was twenty-four hours the cream was skimmed with tin skimmers and set away in a cool place, usually the cellar. Less than one-half to three fourths of the cream was thus se olleges and professional schools of cured. When enough had accumulat the State. The regents appointed by the Governor are: Fred H. Fletcher, Cambridge, First ed a churning was made. Later milk was put in "deep setting" cans kept in well or spring water, and after 12 hours the cream was skimmed, or, it Robert Garrett, Baltimore county, the more improved cans, the skin milk was drawn from the bottom econd district.
William P. Ryan, Baltimore, Third leaving the cream in the can. Here again one-third of the cream was left Slyvan H. Likes, Baltimore, Fourth district. in skim milk to be fed to pigs. Thirty years ago the first cream separator Oliver Metzerott, Prince George's was made in this country. The prin cipal of the separator is based specific gravity of liquids. As John E. Edwards, Cumberland, Sixth separator bowl revolves at about six The several regents will serve difthousand revolutions per minute the heavier portion of milk, skim milk, is thrown outside by centrifugal force ferent terms—two, four and six years. Under the law they must not be affiliated with any existing education-al institutions in the State. and discharged, while the lighter por tion, cream, is thrown to the center of the bowl and discharged through separate tubes. The advent of sep-arators was a great boost for the These several institutions repre-ented in the Board by the following

dairy business, as it separated prac-tically all cream from milk, prevent-ing waste and making it possible to feed sweet skim milk to stock. Types of separators on the market today are legion. It is estimated the sales of separators in the United States amounts to 175,000 per year. These range in capacity from two hundred pounds of milk per hour in the small hand separators to four thou-sand two hundred pounds in the big power machines and cost from one to six hundred dollars.

By turning slightly the "cream screw" in a separator the cream can be made thick or thin or rich or poor in butter fat, as desired, depending on the amount of skim milk incor-porated with it. For example, common table cream of 20 per cent fat or a very rich thick cream contains from fifty to sixty per cent butter fat. One would think a cleaner and bet

officio, and the six regents named yes-terday by the Governor. The Board of Regents will elect a provost, who will be the executive head of the University. He will be ex-officio, a member of the Board of Regents; the Governor will be, ex-officio, Chairman of the Board. The Board shall have ter flavored cream would be produced by the introduction of the separator; but, as a matter of fact, the flavor and sanitary qualities of separator cream produced on the average farm are not as good as before, and the quality of bers a vice chairman, who shall act in the absence of the Governor. The university is authorized to enter butter made in creameries from this separator cream is inferior, largely bento contract with any educational in-

stitution or hospital created in the future, and to affiliate this institution with the university. The board of regents is required to provide for a TESTING MILK WITH NEEDLE

Large Drop Will Adhere to Point of Piece of Steel if There Has Been No Adulteration.

Good milk should look white, with a yellowish tinge. Bluish milk is poor in fatty matter. Good milk is a little sticky when stirred, and lathers. If water has been put into it it does not lather. If you wish to be sure that the milk is of the proper richness, take a long needle, see that it is clean and

Testing Milk With Needle.

dry, and dip it into the milk an inch or so below the surface. it, and if the milk be pure a large drop will adhere to the needle and hang there for some time. But if the milk drops from the needle quickly in several small drops it has certainly been adulterated.

It should not be forgotten that milk is a germ-carrier, and that, even though pure, it may be infected and cause disease. short by a long tongue.

Have a Silo.

If a cow could talk and you would ask what she would have to eat she would answer: "Give me a juicy, succulent food and I will give twice as much milk." The succulent food is supplied in the summer by a good pasture and in the winter by silage. All farmers should have a silo

Scours is usually caused by having the milk too cold or too hot, or by feeding irregularly. Filthy quarters feeding irregularly. Filthy quarters and dirty pails will also cause scours. Much Depends on Man.

Oftentimes the degree of excellence which a cow may pessess depends upon the man who takes care of her.

Effect of Bilage Silage has very much the same effect upon the cow's digestive apparatus as pasture grass.

Moving Backward Selling the young heifers that are from the best cows is moving back-

are constantly being restored to health by Lydia E. Pinkham's Vegetable Compound

The many testimonial letters that we are continually publishing in the newspapers—hundreds of them—are all genuine, true and unsolicited expressions of heartfelt gratitude for the freedom from suffering that has come to these women solely through the use of Lydia E. Pinkham's Vegetable Compound.

Money could not buy nor any kind of influence obtain such recommendations; you may depend upon it that any testimonial we publish is honest and true—if you have any doubt of this write to the women whose true names and addresses are always given, and learn for yourself.

Read this one from Mrs. Waters:

Camden, N.J.—"I was sick for two years with nervous spells, and my kidneys were affected. I had a doctor all the time and used a galvanic battery, but nothing did me any good. I was not able to go to bed, but spent my time on a couch or in a sleeping-chair, and soon became almost a skeleton. Finally my doctor went away for his health, and my husband heard of Lydia E. Pinkham's Vegetable Compound and got me some. In two months I got relief and now I am like a new woman and am at my usual weight. I recommend your medicine to every one and so does my husband."—Mrs. Tillie Waters, 1135 Knight St., Camden, N.J.

And this one from Mrs. Haddock:

Utroa, Okla.—"I was weak and nervous, not able to do my work and scarcely able to be on my feet. I had backache, headache, palpitation of the heart, trouble with my bowels, and inflammation. Since taking the Lydia E. Pinkham's Vegetable Compound I am better than I have been for twenty years. I think it is a wonderful medicine and I have recommended it to others."—Mrs. Mary Ann Haddock, Utica, Oklahoma.

Now answer this question if you can. Why should a woman continue to suffer without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored somany suffering women to health. Write to LYDIA E.PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

KEEPS BABY FROM CRYING.

Butterfly Decoration Many artists have employed the but-terfly in decoration, but neither brush ner crayon is as effective as nature itself. No imitation, however good, can do justice to the gorgeous colors of the tropical butterfly. One might as well try to reproduce a rainbow in oils. A most effective novelty—a but-terfly tray—was shown me yesterday by a charming North side hostess. It was made on the same principle as the tapestry tray. A glittering butter-fly, the spread of whose wings must have been all of ten inches, was mounted on a stalk of milkweed. The pressed butterfly was then covered with glass and hemetically sealed in. To say that the tray was stunning is to speak very feebly of its attractive-ness. With this objet d'art as a cen-terpiece a clever hostess could easily arrange a "butterfly luncheon."-Chi

cago Inter Ocean. He Explains.

"What do you mean by kissing the maid?

"It was an excusable mistake, my dear. The hall was dark, and she had on your face powder and your beautiful golden hair."

The Reason. "The French insist on civil weddings."
